CURRENT COMMENTS
From the Editor's Sanctum.

THE POOL AND THE GUN.

Already this season the fool and the loaded gun have begun to add their annual toll to the list of untimely deaths. Two cases are reports from the vicinity of Edmonton this week. In the one case, a man went to lift his gun from a buggy, when, of course, from some unknown reason, the firearm went off, the contents entering the man's body, which terminated fatally. And in the other case, a man named Kulers was taking his gun from a boat in which he and a companion had been shooting ducks, at the same time giving the gun a jerk, the trigger caught on the side of the boat with fatal results. Still a third and similar case is reported from New Ontario, in which the victim was getting his gun from the boat after landing on the shore. Some people call these accidental deaths. Accidental, nonsense! Pure and downright criminal carelessness. There is not the slightest doubt, had ordinary caution been used these precious lives would have been saved. How many lessons do some of these need who are handling loaded firearms? Then there is the didn't know-it-was-loaded fool, who, the other day, was handling a 22 rifle, and pointing it playfully at his ten-year-old sister, pulled the trigger, killing her on the spot. If only common sense and caution were used many innocent and precious lives would be saved, and many terrible heart breakings of the friends of the victims avoided. Do, for pity's sake, use your head when handling such deadly weapons.

SIGNS OF GROWTH.

Perhaps one of the surest signs of the continued healthy growth of Canada is to be seen in the constant upward tendency of her revenue. The Dominion financial statement for August, just published, showed the total revenue for the month was \$14,445,849, an increase of three millions over the corresponding period of last year.

For the five months ending with August the aggregate was \$66,903,167, an increase of \$14,000,000. Expenditures on consolidated revenue for the five months was \$35,351,137, an increase of five millions in August \$6,953,065 was spent.

Between July first and August the public debt was decreased by \$3,097,926. The net debt is now \$319,528,099. This is a decrease of eight millions compared with a year ago.

Governments may come and governments may go, but the prosperity and growth of Canada goes on ever increasing.

There is another healthy sign of Canada's prosperity that will be noted in the above statement, and that is, between July first and August the public debt was decreased by \$3,097,926, and this debt has been decreased by \$8,000,000 during the past twelve months, which speaks well for the government.

It is to be hoped that the religious and moral life, as well as sobriety, of the nation will ever keep pace with the country's financial and numerical growth. We have indeed a goodly heritage in this fair and exceedingly fast growing land of ours. While the substantial financial growth is a thing greatly to be desired, there are things needed to make a nation a contented and happy people. Let us not lose sight of the fact that "Righteousness exalteth a nation," and its people should strive to attain that end as far as possible.

NOT NICE, IF TRUE.

It is reported in the papers that Sir Wilfred Laurier, referring to the great ovation given to Premier Borden the other day on his arrival at Quebec from his trip to Great Britain, that it was given to him (Borden) because he was Premier of Canada. That was not nice of you, Sir Wilfred, if the report is true. By the same reasoning, all the great ovations and royal receptions given to you when Premier of Canada, was given simply because you were Premier—not for your splendid gifts and exceptional oratorical power. You must not be jealous, Willy. Give honor to whom honor is due. Premier Borden deserves all the honor and gratitude and ovation of the people of Canada for the splendid way he delivered himself on the navy question and the loyalty of all true Canadians to the Motherland. Both the Liberals and Conservative press and politicians of Great Britain gave him unstinted praise; and surely Canada need not be ashamed or refuse in doing the same.

GIVE CONSOLIDATED SCHOOLS A TRIAL.

The time is at hand when consolidated schools will have to be given at least a trial in Alberta, instead of building so many small schools—with their small attendance and necessary expense. The extraordinary large influx of agricultural settlers that are now pouring in the northern part of this province, who are bringing in hundreds of children of school age, whose education must not be neglected, will of necessity require more school accommodation, to meet this requirement. Now would be a good opportunity for the government of Alberta to take up the consolidated school question in earnest. It has proven successful in other provinces, and there is no reason why it couldn't be made so here. It is to be hoped that the government will at least give consolidated schools a fair trial. It seems to us to be the very best method of meeting the pressing need for the educational want of many districts in Alberta at the present time in the northern part of the province, let alone what may occur in the future. Some objection has been urged against consolidated schools in the newly open parts of Alberta on account of the sparsely settled districts and the great distance at present separating one settlement from another. But that will soon be overcome by the fact that the constant rush of settlers that are daily going into these districts will bring them closer together in a very short time. The bare prairie to-day may practically be settled to-morrow, and alive with human activity and life. This has occurred time and again in Alberta. Give consolidated schools a trial, then.

Mr. F. H. Scragg took the Zepher appointment last Sunday.
Don't forget rally day, Sept. 29th.

Threshing is in full swing all around this district.

Mr. Call from the United States, is assisting Mr. Hollmatz at the C.P.R.

They had a swell time out at Mr. Len. Farrell's lately—the girls had the mumps.

Miss Olive Mann has accepted the position of telephone operator at Vulcan, and left for there on Tuesday.

Farmers in need of men during harvest and threshing are advised to give their orders to Telephone No. 10, Cayley Exchange.

Mr. Jack Cohen left on Monday morning for Winnipeg, south of Lethbridge, to work on the elevators under construction there.

After this moon has played out wouldn't it be wise to have our city lights in operation every night for the benefit of those who indulge in late suppers.

We have made arrangements with The Grain Growers' Guide, the only paper in Canada owned and published by the organized farmers, to supply it and the Cayley Hustler for \$1.50 per year in advance.

Most of the summer couples have now finished honey-mooning. Silently 'tis true, but nevertheless sincerely, an expression of thanksgiving and relief has gone up from many of those misguided men who set out so recently to discover the blissful land of promise and eternal joy.

On Thursday last, Sept. 12th, about fifty of the friends from Braeside, Round Mount, and Arthur districts met at the home of Mrs. Chas. Howard, at which was being conducted the service the last three or four months in those appointments. Mr. Grier was presented with a purse of gold. He will be missed very much, as he took great interest in the work. He leaves for Vancouver next week to resume his studies.

Mr. and Mrs. Vance are on a trip to the Coast.

Bradley—At Cayley, on Monday, Sept. 9th, to Mr. and Mrs. J. W. Bradley, a daughter.

Miss Ada Buckle of Thorndale, Ont., is the guest of her aunt, Mrs. W. Caspell.

In another column will be found the notice of John Billings & Co., grain commission merchants, of Winnipeg, Man. It will be to the farmers' interest to drop a line to this well-known firm before shipping their grain. Do it to-day.

A quiet and pretty wedding was solemnized on Monday, Sept. 9th, in the English church, Nanton, when Mr. Thos. D. Snodgrass and Miss Fidelia E. Golladay, of Valer, Montana, were united in the bonds of matrimony by the Rev. W. J. Hinchee, in the presence of several friends of the bride and groom. The young couple will reside on their farm, east of Cayley, after a trip to Calgary and other places.

One night last week some of our young men thought they would have a chicken supper, but what we can learn they must have had very "strong gravy," by the way, it is reported, they walked home; in fact, some from Nanton did not get home until the next morning. One of our young "sweet sixteen's" being anxious to know what kind of "gravy" was used by the party from Nanton, asked the Chinaman, he replying, "Me no tell, you might fire him."

ITEMS OF INTEREST

The date for Thanksgiving will probably be fixed "for Monday, October 21st."

High River has been selected for next year's convention of Alberta's Municipalities.

It is estimated that \$5,000,000 was put in circulation at Calgary as a result of the Stampede. No wonder Calgary wants to make it a yearly event.

The Stampede has been all sea-saw. The arena was a sea of mud, and the stands of bleachers a sea of laces.—News-Telegram. And the proceeds a sea of dollars.

The harvesters in the field up to date number nearly 40,000. This number has actually been distributed over the wheat fields of the West. It is estimated that fully 50,000 to 60,000 before all the grain is harvested.

A series of meetings are being prepared by the United Farmers of Alberta this fall in preparation for the annual convention to be held in Calgary the third week in January next. This convention will probably be the largest ever held in Alberta by the association and about 600 delegates will probably attend.

In order that all the available men in the west may be enabled to go to work in the harvest fields the department of the interior has decided to permit all home-headers now putting in their time to leave their homesteads without being subject to the danger of having their entry cancelled. The following telegram from J. W. Greenwood, superintendent of Dominion lands is received at the Calgary land office this week: "Entrants who apply to the department directly or through local agents for permission to leave their lands for the purpose of engaging in harvesting operations are to be granted protection while so doing. All such applications for leave should be forwarded by agents promptly."

Some experts are looking for copper ore near Revelstoke.

Immigration figures for the present year to August 1st, show 82,783 arrivals from Great Britain a decrease of 15 as compared with the same period last year. Continental immigration totalled 60,959, an increase of 15,000; while 65,900 Americans entered Canada, an increase of 11,000 as compared with the same period last year.

An appeal of Methodists, Presbyterian and Congregational churches in eastern and western Canada for some official way to bring about union immediately brought together on Monday last in Toronto a special commission of all three denominations. Many prominent clergymen met and discussed fully the question. This is regarded as a very definite step along the lines of organic union of the three churches.

Plans are under way to launch one of the biggest movements ever undertaken to resurrect an interest among the farmers of Alberta in the cattle raising business. The plan is to form a co-operative association and have the association give the cattle out to the farmers on shares. They are to raise them and then get half the profits. The government is to be asked to assist in the matter.

Pronounced dead by a qualified physician, laid out in his house while authority was being sought from the coroner to bury him without inquest, resuscitated by another physician after a police inspector had suspected a spark of life, and to-day walking about the streets of Winnipeg, is the strange experience of S. Musick of that city. Had it not been for a series of accidents Musick would have been buried alive, probably to wake out of his comatose condition only to be suffocated.

Boards of Trade Resolutions

The different boards of trade of Southern Alberta have prepared many important resolutions which they will present at the annual convention which is to be held at Moose Jaw this week. Among the resolutions will be the following:

To request the dominion and provincial governments to establish storage elevators in the western provinces at points to which the grain may be hauled from the field and sorted, thus giving protection in any kind of weather.

For the appointment of freight rate experts in the west who can sit in arbitration to settle disputes between shippers and transportation companies.

For the immediate development of western lines attention is called to the fact that the railway facilities are not adequate when the progress and growth of the country is considered.

For grain inspection districts.

For a Dominion wide workmen's compensation act which will supersede all provincial acts of this character.

To institute a chattel mortgage system which will be more simple than the one now in force, and which will do away with regulations by which big mortgages are given concessions over small ones.

The system such as is used in most of the states of the union is suggested, with a registration fee of 25 cents.

For Sale or Lease
Thirty-horse power Engine, new last year, and 36x60 Separator in good order. Will be sold cheap or leased for the season.
